ABSTRACT

This file contains the progress report for ORR. The mission is stated and the progress on each element of the mission is gone over. Achievements include work done in coordination of economic intelligence, the NIS program, reports production, geographic intelligence, the Center for International Studies*, and day-to-day intelligence reporting through interagency committees, which are listed. Also included are the problems currently before the Economic Intelligence Committee**, the organization of ORR Divisions, a list of industrial and university consultants, and a general overall summary of ORR's progress. There is also included in this file a short paper on the need for economic intelligence concerning the USSR.
